Show All Sections

CMSC100

Bits and Bytes of Computer and Information Sciences

[Syllabus Repository_\(0\)](#)

Credits: 1

Grad Meth: Reg

Restriction: For first time freshmen and first time transfer students; or per department.

Open Seats as of
06/08/2026 at 10:30 PM

QUESTIONS? ASK SHELLY

Cross-listed with: INST101.

Credit only granted for: CMSC100 or INST101.

Students are introduced to the fields (and disciplines) of computer science and information science within a small classroom setting. They will learn to make a successful transition from high school to the university, while exploring study skills, student success plans and research opportunities.

[Show Sections](#)

CMSC106

Introduction to C Programming

[Syllabus Repository_\(0\)](#)

Credits: 4

Grad Meth: Reg

Prerequisite: MATH115.

Restriction: Must not be in Computer Science program; and must not have completed any courses from CMSC131-499 course range.

Credit only granted for: CMSC106 or CMSC122.

Design and analysis of programs in C. An introduction to computing using structured programming concepts. Intended for students with no or minimal programming experience.

[Show Sections](#)

CMSC122

Introduction to Computer Programming via the Web

[Syllabus Repository_\(0\)](#)

Credits: 3

Grad Meth: Reg

GenEd: [DSSP](#)

Restriction: Must not have completed any courses from CMSC131-499 course range; and must not be concurrently enrolled in CMSC131.

Credit only granted for: CMSC106, or CMSC122.

Introduction to computer programming in the context of developing full featured dynamic web sites. Uses a problem solving approach to teach basics of program design and implementation using JavaScript; relates these skills to creation of dynamic web sites; then explores both the potential and limits of web-based information sources for use in research. Intended to help relate a student's major to these emerging technologies.

[Show Sections](#)

CMSC125

Introduction to Computing

[Syllabus Repository_\(1\)](#)

Credits: 3

Grad Meth: Reg

GenEd: [DSSP](#)

Prerequisite: Must have completed or be concurrently enrolled in MATH115 or higher.

Restriction: Must not be in the Computer Science program; and must not have completed any courses from CMSC131-499; and must not have completed BMGT302, IMDM127 or INST126.

Credit only granted for: IMDM127 or CMSC125.

Introduces you to the computing field as a whole. You will gain skills used across the spectrum of computing majors and learn about the great variety of routes into the various areas of study and employment in technological fields.

[Show Sections](#)

CMSC131

Object-Oriented Programming I

[Syllabus Repository \(1\)](#)

Credits: 4

Grad.Meth: Reg

Corequisite: MATH140.

Credit only granted for: CMSC131, CMSC133 or CMSC141.

Introduction to programming and computer science. Emphasizes understanding and implementation of applications using object-oriented techniques. Develops skills such as program design and testing as well as implementation of programs using a graphical IDE. Programming done in Java.

[Show Sections](#)

CMSC132

Object-Oriented Programming II

[Syllabus Repository \(0\)](#)

Credits: 4

Grad.Meth: Reg

Prerequisite: Minimum grade of C- in CMSC131; or must have earned a score of 5 on the A Java AP exam; or must have earned a satisfactory score on the departmental placement exam; and minimum grade of C- in MATH140.

Credit only granted for: CMSC132 or CMSC142.

Introduction to use of computers to solve problems using software engineering principles. Design, build, test, and debug medium -size software systems and learn to use relevant tools. Use object-oriented methods to create effective and efficient problem solutions. Use and implement application programming interfaces (APIs). Programming done in Java.

[Show Sections](#)

CMSC133

(Perm Req)

Object Oriented Programming I Beyond Fundamentals

[Syllabus Repository \(0\)](#)

Credits: 2

Grad.Meth: Reg

Prerequisite: Must have completed or be concurrently enrolled in MATH140.

Restriction: Permission of CMNS-Computer Science department; and student must have earned a 4 on the AP Computer Science A exam or a satisfactory score on the CMSC131 department placement exam.

Credit only granted for: CMSC131 or CMSC133.

An introduction to computer science and object-oriented programming for students with prior Java programming knowledge (conditionals, loops, methods). Program design, implementation, and testing using object-oriented techniques. All programming will be done in Java using a graphical IDE. 🐼
