CMSC216

(Perm Req)

Introduction to Computer Systems

[Syllabus Repository \(0\)](#)

Credits: 4

Grad Meth: Reg

Prerequisite: Minimum grade of C- in CMSC132; and minimum grade of C- in MATH141.

Open Seats as of
06/08/2026 at 10:30 PM

QUESTIONS? ASK SHELLY

Restriction: Must be in a major within the CMNS-Computer Science department; or must be in Engineering: Computer program; or must be in the Computer Science Minor program; and Permission of CMSC - Computer Science department.

Introduction to the interaction between user programs and the operating system/hardware. Major topics include C programming, introductory systems programming, and assembly language. Other concepts covered include UNIX, machine data representation, thread management, optimization, and virtual memory. Programming is done in the Linux Environment.

CMSC250

(Perm Req)

Discrete Structures

[Syllabus Repository \(1\)](#)

Credits: 4

Grad Meth: Reg

Prerequisite: Minimum grade of C- in CMSC131; and minimum grade of C- in MATH141.

Restriction: Must be in a major within the CMNS-Computer Science department; or must be in Engineering: Computer program; or must be in the Computer Science Minor program; and Permissions of CMSC - Computer Science department.

Fundamental mathematical concepts related to computer science, including finite and infinite sets, relations, functions, and propositional logic. Introduction to other techniques, modeling and solving problems in computer science. Introduction to permutations, combinations, graphs, and trees with selected applications.
